

**SISTERS OF THE GOOD SAMARITAN FOUNDATION LTD
DEVELOPMENT AND NON-DEVELOPMENT ACTIVITY POLICY**

APPROVED BY THE BOARD ON

Introduction

Sisters of the Good Samaritan Foundation Ltd (**GSF**) is committed to sound development practice, including sustainable, strengths-based approaches that address the causes of poverty, and ensuring that the organisation's development and humanitarian activities are accurately represented to GSF partners, supporters and the Australian public. This includes meeting and accurately declaring tax deductibility status and Recognised Development Expenditure (**RDE**).

GSF is committed to ensuring that funds and other resources designated for the purpose of aid and development will be used only for those purposes and will not be used for religious activities, political activities, or welfare activities.

Purpose

The purpose of this policy is to provide guidance to GSF personnel, contractors and GSF funded partners in distinguishing between and clearly separating development and humanitarian, and non-development objectives and activities; in all aspects of the organisation's work, including programming, financial reporting, and fundraising and communications.

Scope

This policy applies to:

- GSF personnel (as defined);
- Contractors engaged by GSF;
- GSF funded and other partners (as defined).

GSF management will take steps to ensure that all GSF personnel, contractors and partners are made aware of their obligations under this policy.

Policy

It is the policy of GSF and a responsibility of its Board and management to take steps to ensure that:

- the organisation's activities are accurately represented to the people GSF works with, including supporters and the Australian public;
- Funds raised for aid and development purposes do not place any conditions or obligations on recipients in terms of non-development (religious, welfare or political) outcomes; and
- Funds are only provided for activities over which GSF has a role in management and oversight, access to reporting, and the ability to withdraw funding if required (i.e.. not 'channelled').

Where there are components of GSF funded programs which involve religious, political or welfare activities, these will be documented and accounted for separately.

Internal Operations

GSF commits to:

1. Clearly stating GSF's commitment to sustainable development in partnership agreements.
2. Providing GSF Development and Non-Development Activity Policy to all GSF personnel and program-related contractors, and take steps to ensure they understand the Policy.
3. Tracking, managing, reporting and accounting for funds raised for development and non-development activity separately.
4. Ensuring that all GSF personnel and program-related contractors annually discuss the organisation's development and non-development activity obligations.
5. Annually reporting to its Board on development and non-development activity in GSF program portfolio.
6. Ensuring project information is clearly separated into development and non-development activities for communications and fundraising purposes.
7. Reviewing communications materials, prior to publication, to ensure distinction between development and non-development activities.
8. Ensuring supporters can choose to contribute to its aid and development activities only, if they wish.

GSF Funded Projects/Programs

All GSF funded partners are expected to act in accordance with the principles outlined in this policy.

GSF commits to:

1. Forging partnerships that promote sustainable development; supported by partnership agreements that reflect the principles and requirements in this policy, and are discussed with partners.
2. Ensuring that separation of development and non-development activities occurs in project planning (particularly during the appraisal of project proposals), and that monitoring (clear documentation of any non-development activities, separate follow-up and reporting, with annual screening for non-development activities) and evaluation also occur.
3. Supporting its partners in their compliance with development and non-development activity requirements, including regularly assessing capacity (whether the partner is engaged in non-development activities and, if so, how it is able to separately manage and account for its development and non-development activities), addressing training needs, explaining partnership obligations, as well as regular monitoring and review by GSF.

Compliance

If it is suspected that a GSF funded partner may be using development funds for religious, political or welfare activities, the nature of these activities will be clarified with the partner. If the partner is found to be engaging in non-development activity, the project or activity will be excluded from GSF RDE calculation and GSF will work with the partner to ensure such activities are excluded from the GSF funded budget. Where there are welfare activities, GSF will work with the partner to move to a development approach. If, over time, this is not possible, funding from GSF will be withdrawn.
