

GOOD SAMS FOUNDATION'S – FOCUS ON INCLUSION

We will actively promote diversity and inclusion. We will identify the marginalised women and children in the communities in which we operate and ensure they have equal access to resources, opportunities and the decision-making process within our programs. We have identified the people in our communities are affected by these intersectional drivers of marginalisation – ongoing poverty, gender, age, disability and race. We will ensure that the marginalised are given a voice in our program. We will ask for their input on decisions so that they can contribute 1. Their knowledge around good decisions – good choices that positively impact their cohort 2. Their comprehensiveness – their lived experience.
